# LEADING EDGE RADIO NETWORK

REMOTE DJ INSTALLATION AND SETUP

HIT THIS LINK TO DOWNLOAD INSTALLATION FILES.

http://leadingedgeradionetwork.weebly.com/resource-files.html

The files will be zipped.   You must extract all files and then open the extracted files.

IN WINAMP CLICK ON "OPTIONS" THEN "PREFERENCES"

After extracting, open the files up and install Winamp 1st and then Shoutcast

Your Settings will be as follows:
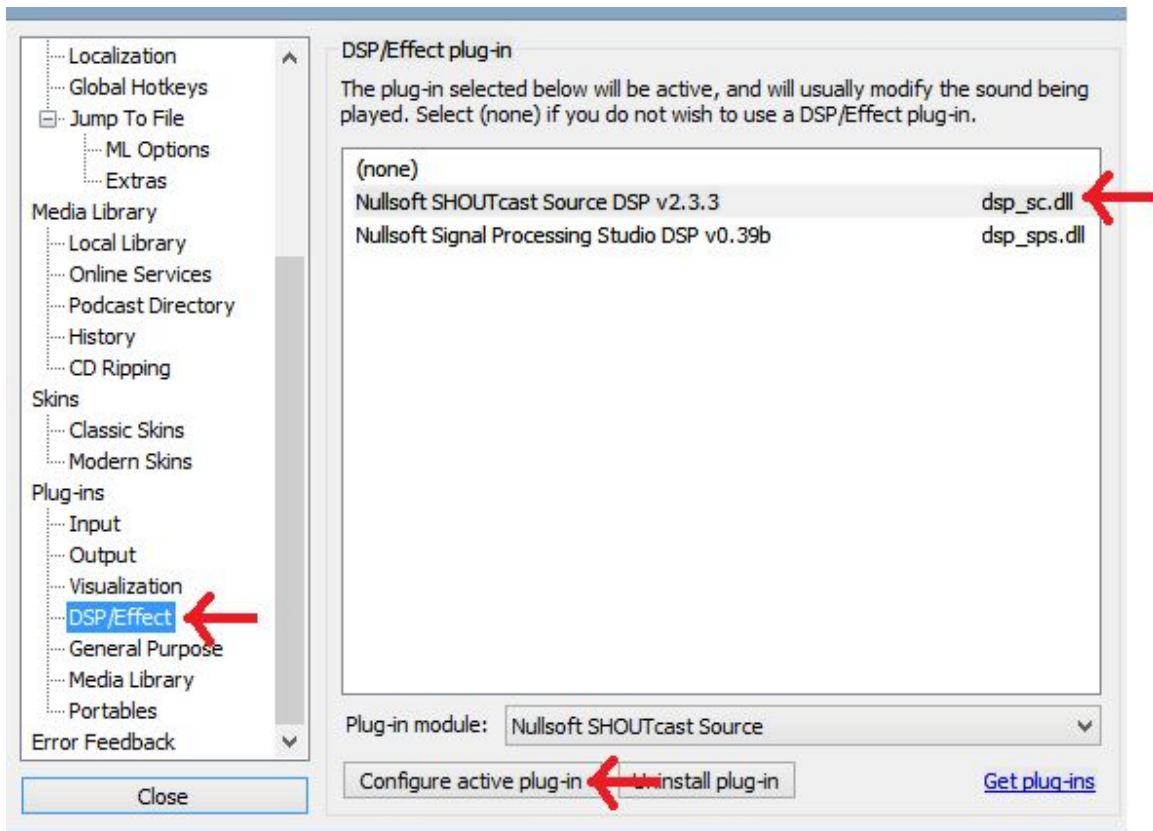

Server address: pleer.wavestreamer.com
PORT: 8425
Stream ID: 1
YOUR DJ ID
YOUR DJ PASSWORD

CLICK ON PLUG-INS / DSP / EFFECTS
HIGHLIGHT THE SHOUTCAST SOURCE DSP
CLICK ON CONFIGURE ACTIVE PLUG IN

Check the automatic re-connection box but do not check the "Use SHOUTcast v1 box
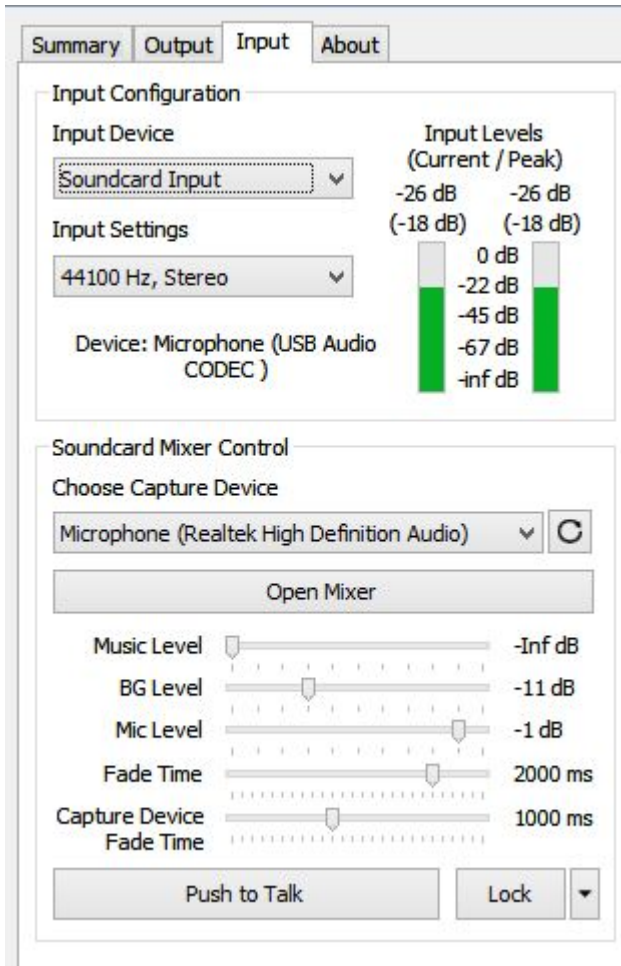

Check on the "Auto Connect" box

Click on the "Directory"   Tab and complete as follows:

URL: http://www.leadingedgeradionetwork.com

Genre: Political

Set the encoder to look like this...

The Input tab should look like this....

The Winamp / Shoutcast will connect at the appointed time and you will be live.
